Company Profile

Powerdrive is an independent, locally owned and operated bearing and power transmission company with strategically located sales and service centres in Western Australia. As an experienced team they are committed to supplying customers products, services and technical support - 24 hours a day, 7 days a week.

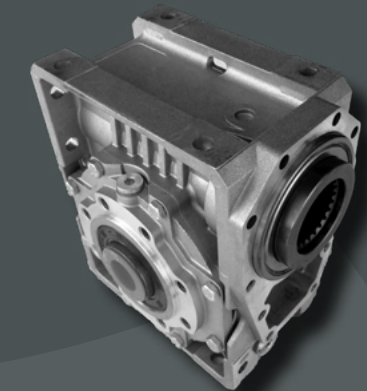

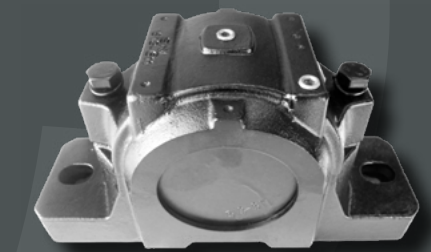

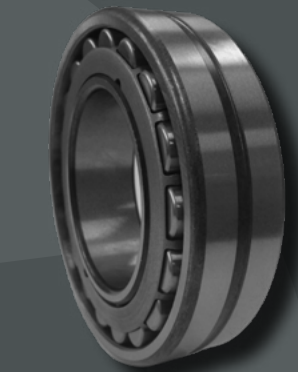

Since commencing in 2001, they have forged themselves as an industry leader in the supply of quality bearings, electric motors, industrial gearboxes, power transmission and conveyor components. With a well-regarded history of reliability and unparalleled customer service, Powerdrive have accepted distribution opportunities from world leading manufacturers such as SKF, Optibelt, TECO, DONLY, Bonfiglioli, Rath, Tollok, Motovario, PDH, Renold and ABB Dodge.

Customer service, quality products and local stock availability are the foundations of the business. Continually investing heavily into stock ensuring the quickest possible lead times resulting in maximum reliability and less machine down time for your plant and equipment.

Staff and Contractors are competent, skilled and focused on developing close and sustainable relationships with their customers. Exemplary customer service, market leading products and professional service are a trademark of the Powerdrive name.
